

I'd Give My Life

Demis Roussos

I'd give my life
If I could hold you one more time
Make love to you just one more time
Feel your body one more time, oh

I'd give my life
If could see that smile again
See those shining eyes again
Making me so hope

This time you'll see I'll be me without trying to be clever
This time I won't try to smile for you and hold you forever
I'll be a man who opens his heart a lets his feelings show
And if you feel you've got to leave again, it'll hurt but I'll
let go

I'd give my life
If you would give me one more chance
All I want is one more chance
But isn't very much to be asking

I'd give my life
If I could see you look at me
With the love you felt so desperately
It almost went down crying

I remember how I overlooked all the love you were giving
All the times you reached out and made me feel life was worth l
iving
Now I've got nothing left cause without you there's no reason l
eft to live
And if you come back, I'd give you the one thing I've got left
to give

I'd give my life
I'd give my life
