

I Know I'll Do It Again

Demis Roussos

When Easter time would ring a bell
I was so young, no more that ten
I longer for to drink and shave
I wish I were grown-up

The night have grown
The night I've shaved
And I have run by clap and pain
I've done things wrong, but anyway
I know I'll do again

Was it then summer of fall
Spring time, I don't recall
When you tip toe away from my heart

Was it then sun-up or dawn
Night time, I don't recall
When love were won't come
Came for the first time

Some burn the hearts
Some burn the land
That's all I've done
That's all I've plan
I know I'll do it again

When Easter time would ring a bell
I was so young, listen my son
I longer for a smoked gun
I wish I were grown-up

Was it then summer or fall
Spring time, I don't recall
Pot call, snow white look in my head

Was it then sun-up or dawn
Night time, I don't recall
Don't mind the pain
I know I'll do it again
