

## L.O.V.E. Got a Hold of Me

Demis Roussos

L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
Good and tight

I hit a lonely space  
So I checked a little place down on the avenue  
I did a zoom across a very crowded room  
And I spotted you  
Right then and there that little stare  
Gave me the feelin'  
And it's here to stay  
All the smoothest honeys of the world  
Couldn't tear me away

L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
Good and tight...

We did our maiden dance and we fell into the trance of a funky  
tune  
I had a dream about a hot and heavy scene starring me and you  
The music cooked and we both looked with only fire burnin' in y  
our eyes  
And the thrill of having you so near took me to paradise

L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
L.O.V.E. got a hold of me  
It was late last night and it's good and tight  
Good and tight...
