

Lay It Down

Demis Roussos

All the guys are trying and chatting up the dollies
But listen to me and I'll give you the word
Don't try to do what everyone is doing
You've got to say the things that they've never heard

Get on down, get on down, get on down
Get on down, get on down, get on down

Lay it down, lay it down, lay it down
Lay it down, lay it down, lay it down

No matter what you do talk about the weather

So get on down to business and use any plot
All you got to do is show them you're together
'Cause you know they need to see what you've got

Get on down, get on down, get on down
Get on down, get on down, get on down

Lay it down, lay it down, lay it down
Lay it down, lay it down, lay it down

...
