

# My Only Fascination

Demis Roussos

You're my only fascination, my sweet inspiration  
Everything I want could be  
You're the sun that rises for me  
My summer breeze from the sea

Some lucky day you came my way  
and shut my joy and sorrow  
With words so true, your colored blue the clear sky of tomorrow  
I touched your hand and once again you gently say you need me  
Your mother spring the love you bring is love for love you ever  
yday

You're my only fascination, my sweet inspiration  
Everything I hope to be  
You're the dawn that rises for me  
My summer wind from the sea  
You're my only fascination, my sweet inspiration  
You're my tender harmony  
If it rain it's musical here, only because you are near

For words you say in your way in your own way  
Can fill my heart with sunshine  
Some how i know this love will grow and  
And that you'll always be mine  
The morning dew can talk to you  
and awake each morning  
The friendly wind will stop and sing  
The moment you say hello

You're my only fascination, my sweet inspiration  
Everything I hope to be  
You're the dawn that rises for me  
My summer wind from the sea  
You're my only fascination, my sweet inspiration  
You're my tender harmony  
If it rain it's musical here, only because you are near
