

Song for the Free

Demis Roussos

Didn't throw away my life
Going to release my time
Saw it in the book of love
Only written for the free

Coming from a distant land
Wisdom is the helping hand
Chosen from the fruits of love
Only given to the free

Where the good old days are passing
Hand in hand we will be
And no one standing between us
Have the right
You and me

You and me

Send to me a love that's true
And a secret just for you
In your eyes a vision fades
Only given to the free

Where the good old days are passing
Hand in hand we will be
And no one standing between us
We have the right
You and me

You and me

Didn't throw away my life
Going to release my time
Saw it in the book of love
Only written for the free

Coming from a distant land
Wisdom is the helping hand

Chosen from the fruits of love
Only given to the free
