

Time

Demis Roussos

Time

People say it passes by oh so fast
I'm keeping all those hours here inside

Time

Bringing back the august sky from the past
And all the summer flowers that never died
I see the cafe where we meet
The old guitarist in the street
Taste the red wine that we shared

Time

How can we forget those days?

Time

Is sometimes on your side

Time

Gifts of summer waiting there
Aah, we wait for time and time
Even when we're apart
We keep that summer here in our hearts

Time

Takes us to the place we met long ago
Oh it's like an island in a world of care

Time

Shows us things that we forget when we're low
So we close our eyes and then it takes us there
A fishing boat along the coast
The cards we wrote and didn't post
I'll see you in the old times square
Is still there

Time

How can we forget those days?

Time

Is sometimes on your side

Time

Gifts of summer waiting there
Aah, we wait for time and time
Even when we're apart
We keep that summer here in our hearts

Even when we're apart

We keep that summer here in our hearts

And when the world goes round to fast
We sail away into the past
And though love has no reason or rhyme
I know it's here for all time

Time

Gifts of summer waiting there

Time

Sometimes on your side

Oh oh oh, time

How can we forget those days?

Aah, we wait for time and time

Even when we're apart
We keep that summer here in our hearts
