White Wings

Demis Roussos

There is land I can show you are beyond the rainbow's end close your eyes and I'll surely guide you stay behind me let me hold your hand close your eyes and I'll surely guide you stay close beside me let me hold your hand

There is land I can show you are beyond the rainbow's end close your eyes and I'll surely guide you close behind me let me hold your hand close your eyes and I'll surely guide you over the mountains and the deep blue sea

There is land I can show you are beyond the rainbow's end close your eyes and I'll surely guide you stay behind me let me hold your hand close your eyes and I'll surely guide you stay close beside me let me hold your hand
