

# Who Gives A Fuck

Demis Roussos

Stone by stone, brick by brick  
I'm building up dreams, placin' layers thick  
Smoothly I'm drifting on water deep  
And no one gives a fuck

Still I'm learning every day  
So glad I am to be alive  
With friends surrounded I feel so safe  
And no one gives a fuck

Here and there and everywhere smoothly I'm driftin' on water deep  
Here and there and everywhere I'm tryin'  
Here and there and everywhere happiness and joy we share  
Here and there and everywhere and no one gives a fuck

They've told me I should be somebody  
A person with a name  
Everybody is somebody  
In every country in every land  
Yeah, even in Kosovo and Disneyland

They've told me all the answers  
Before I asked them any questions  
They've used my brain to draw borders  
Filled my heart with rage and anger

Here and there and everywhere confusion and lies we share  
Here and there and everywhere and no one gives a fuck  
Here and there and everywhere smoothly I'm driftin' on water deep  
Here and there and everywhere I am tryin'  
...
