

Voodoo Science

Demob Happy

Once upon a time I knew
What the point was
Maybe you did too
Something happened, something changed
Something spooky, something strange

I saw the gilded bastards
Give your body to the masses
Promise their solution wouldn't fail the lower classes
I saw the tokenistas press their faces to your screen
Whisper down the speaker line what sacrifice will mean
But look at who you're screwing take a
Look at what you're doing now
In the name of love
Look at what you're doing
In the name of

Vodou science
Vodou science
Vodou science
Vodou science

Look what you're doing in the name of love
It's gotta end now it's gotten too much
Look what you're doing in the name of love
It's gotta end now you've had your fun
Look who you're killing in the name of love
It's gotta end now you see it's all done
Look who you're killing in the name of love
It's gotta end now that's quite enough

Look at what you're doing, in the name of

Vodou science
Vodou science
Vodou science
Vodou science
