

ANOTHER PLACE

Demon Hunter

I've gone to where
The worlds align
To find they still resent
The other kind

I know my days are gone forever
As divides are growing
Further and further

But I...
I feel the light of another place
Casting out
Calling me home

Behold the faithful other side
They kill their own
To help them feel alive

I know my days are gone forever
As divides are growing
Further and further

But I...
I feel the light of another place
Casting out
Calling me home

If we're not allowed to be
Breathe outside the lines
We will find our place
Just beyond their eyes
Somewhere of our own
Somewhere through the black
Set the old ablaze
Never turning back

I feel the light of another place
Casting out
Calling me home

But I...
I feel the light of another place
Casting out
Calling me home

I feel the light of another place
Casting out
Calling me home
