

Breaking Through Me

Demon Hunter

I thought I felt you surround me
Something weightless to ease my down
I know your peace when it's found me
Tear my sorrow to pieces

I hear your voice in the distance
See your face when the tide is low
If I drown in my weakness
Send your spirit to follow

If you're waiting on the other side
Living through my eyes
Give me strength to fight, become the light
Breaking through me

I hope you see through the sadness
Feel no grief when the pain is loud
Lead my way through the distress
Be my guide in the fallout

If you're waiting on the other side
Living through my eyes
Give me strength to fight, become the light
Breaking through me

If you're waiting on the other side
Living through my eyes
Give me strength to fight, become the light
Breaking through me

If in my longing to see you
I can't think of the words to say
Know my heart is to breathe you
Be my voice 'til the final day

If you're waiting on the other side
Living through my eyes
Give me strength to fight, become the light
Breaking through me

If you're waiting on the other side
Living through my eyes
Give me strength to fight, become the light
Breaking through me
