

# GODLESS

## Demon Hunter

I see you running in circles again  
I know you're trying to find a way out  
You wanna go it alone in the end  
You wanna follow the great dissent

We're only devices and chemicals  
Don't lay your insides on a pedestal

Godless is just the fate that you wanted  
I guess you like to bleed alone  
Regress among the frail and haunted  
Godless is just a hollow hole

We lead the self, submit to none  
We shut the doors and black the sun  
No greater lord than I alone  
(We feel a pulling to walk on our own)  
We can't afford to walk below  
(Under the weight of a dead man's bones)

We're only devices and chemicals  
Don't lay your insides on a pedestal

Godless is just the fate that you wanted  
I guess you like to bleed alone  
Regress among the frail and haunted  
Godless is just a hollow hole

We're only enough until the bell it tolls  
There's always a line for the bitter souls  
We don't have to fight to retain ourselves  
We follow the light to deny this Hell

Godless is just the fate that you wanted  
I guess you like to bleed alone  
Regress among the frail and haunted  
Godless is just a hollow hole
