

Ouroboros

Demon Hunter

Bear witness
Oh knowing eyes
Our lowest form of hate
Where tolerance will manifest
Contamination state

No sympathy
As villains press to idolize oneself
To agonize
The rest of us won't live inside your hell
Your hell

Regenerated
To medicate the pain
Realize you tried in vain

You fight and you fail
We see the snake devour its own
Tail
Divide and derail
This hill you die upon is so
Frail

You worship your sickness
Insulting all your grief
While hoping our descendants
Lie buried underneath

Relentless
We suffocate
Eradicate your lies
When heresy is spoken
We cut you down to size
To size

Regenerated
To medicate the pain
Realize you tried in vain

You fight and you fail
We see the snake devour its own
Tail
Divide and derail
This hill you die upon is so
Frail

Will the sins of the fathers
Carve vacant holes?
Will the sons and the daughters
Deface this host?
For the sins of the fathers
Carve vacant holes?
Will the sons and the daughters
Deface?

You fight and you fail
We see the snake devour its own

Tail (tail, tail, tail)
Divide and derail
This hill you die upon is so
Frail
You fight and you fail
We see the snake devour its own
Tail
Divide and derail
This hill you die upon is so
Frail
