

## Peace

### Demon Hunter

I see you waiting for a sign  
Some resolve to ease your mind  
Maybe you're not  
Awake as we thought  
Every hope within your dreams  
Wasted on a faith in dead and dying things  
Wither away  
Into our grave

I can see the forest for the trees  
Feel the wound before it bleeds  
I've been waiting for that debt to come and take me to my knees  
But I can't wait for peace  
I can't wait for peace

And we have seen tomorrow's lead  
Let's dwell in truth for once  
There's no release  
Ever we go  
Into the cold  
Ever we go  
Go it alone

I can see the forest for the trees  
Feel the wound before it bleeds  
I've been waiting for that debt to come and take me to my knees  
But I can't wait for peace  
I can't wait for peace

Ooh  
Is it over, can we tell?  
Peace or only Hell  
Ooh  
If it seems to convalesce  
Try and hold your breath

I know it's hard to abandon your path  
When this is all that you have

I can see the forest for the trees  
Feel the wound before it bleeds  
I've been waiting for that debt to come and take me to my knees  
But I can't wait for peace  
I can't wait for peace
