

Breakout

Demon

You know they're after us
Do you know how far we are?
Breakout
The dog are closing in
Soon we'll reach the breakers yard

Head for the underground
Leave all the creatures to play
No-one ever goes there anymore
The rats on holiday
We can stay for a short while here
You're on of the privileged few
When it's over make up your own mind
What you wanna do

Now we're breaking with the past
Living dangerously once more
We're going across the line

Breakout
You know they're after us
Do you know how far we are?
Breakout
The dog are closing in
Soon we'll reach the breakers yard

Don't look back
There's nothing but
Builders dreams in sinking sand
Don't make waves for someone else
It's not the time to make a stand

See the lights in the distance
Gleaming pillars of steal
It's time to take off the new disguise
There's nothing left to fear
They'll be hiding till the battle dies down
There's so much depending on you
We dare not make a mistake at this level
We all have to get through

Now we're breaking with the past
Living dangerously once more
We're going across the line

Breakout
You know they're after us
Do you know how far we are?
Breakout
The dog are closing in
Soon we'll reach the breakers yard

Don't look back
There's nothing but
Builders dreams in sinking sand
Don't make waves for someone else
It's not the time to make a stand
