Fool to Play the Hard Way

Like a river you keep flowing through me Feel like I'm drowning Drowning in your love Just how long can I survive With this weight so deep inside

I'm a fool to play it the hard way
I'm a fool to play it the hard way
I'm a fool to play lt the hard way

Like a gambler on a losing streak Played my cards, but you're misdealing me Guess I should have realised As I looked in your eyes

I'm a fool to play it the hard way I'm a fool to play it the hard way I'm a fool to play it the hard way I'm a fool to play It the hard way I'm a fool to play it the hard way

Need your lovin' I can't let go I'm a fighter guess You always knew I'll take all you can give and more But you're sure worth living for

I'm a fool to play it the hard way I'm a fool to play it the hard way I'm a fool to play it the hard way I'm a fool to play lt the hard way I'm a fool to play it the hard way
