

# Have We Been Here Before?

Demon

Have we been here before  
We all shine on. Shine on  
I believe after life the spirit lives on  
It's a journey without end  
Whatever's precious to you now  
Will it stand, stand the test of time?  
And all those faces in the crowd  
Seem so familiar to you now  
And though I've never walked this street before  
Somehow I feel, I feel I know it so well  
Have we been here before?  
We all shine on  
Have we been here before?  
We all shine on. Shine on  
We move between two points in time  
And question existence of if all  
Is it fact or is it fantasy?  
What lies in wait, waiting for us all  
And when we leave, will we return again  
Only to wear a new disguise?  
And while this world, it keeps on turning  
Will there be a place where both become one?  
Have we been here before?  
We all shine on  
Have we been here before?  
We all shine on  
We exist beyond reason  
No explanation for it all  
We've been searching for it everywhere  
We've done it all before.  
Have we been here before?  
We all shine on  
Have we been here before?  
We all shine on  
And all those faces in the crowd  
Seem so familiar to me now  
And though I've never walked this street before  
Somehow I feel, I feel I know it so well  
Have we been here before?  
We all shine on  
Have we been here before?  
We all shine on and on  
Have we been here before?  
We all shine on  
Have we been here before?  
We all shine on and on.
