

# Into the Nightmare

Demon

(Dave Hill-Mal Spooner)

Don't close your eyes they'll never wake you  
You're into the nightmare  
Beware the dreaded sleep don't let it take you  
For this is the nightmare  
Your mind begins to drift away  
You try to fight but now you know it's too late  
The power's too great  
Your losing control they've taken your soul  
You're into the nightmare  
This nightmare may take your life tonight  
You're into the nightmare  
This nightmare may take your life tonight  
Spirits on the wall they're growing taller  
You're into the nightmare  
The madcap voice that moans for you to follow  
Into the nightmare  
Run for your life no place to go  
The naked truth is now on show to us all  
You've taken a fall  
The phantoms of night you're too weak to fight  
You're into the nightmare  
This nightmare may take your life tonight  
You're into the nightmare  
This nightmare may take your life tonight  
Out of the dead of night they came into the nightmare  
Out of the dead of night they came into the nightmare  
Out of the dead of night they came into the nightmare  
Out of the dead of night they came into the nightmare  
Your mind begins to drift away  
You try to fight but now you know it's too late  
The power's too great  
Your losing control they've taken your soul  
You're into the nightmare  
This nightmare may take your life tonight  
You're into the nightmare  
This nightmare may take your life tonight
