## Demon

Obsession, Obsession love is a deadly game  
Obsession, Obsession

Lyin' eyes in the night, deceitful yet so cool  
You'll never know they are there, watching every move  
Crazy love, shattered dreams how'd you get to this  
You'll never stop until you've broken every rule  
You swore that you would never let it come to this  
You'd walk away and let it be  
Your obsession is ruining my life  
Your deadly game is killing me

Obsession, Obsession love is a deadly game  
Obsession, Obsession jealousy and pain  
Obsession, Obsession love is a deadly game  
Obsession, Obsession

Poison letters, twisted nerve, vengeance is so cruel  
Madness is all around; don't treat me like a fool  
Hit and run, kiss and tell, everything to lose  
Out of the shadows now like strangers in the night  
You swore that you would never let it come to this  
You'd walk away and let it be  
Your obsession is ruining my life  
Your deadly game is killing me

Obsession, Obsession love is a deadly game  
Obsession, Obsession jealousy and pain

Obsession, Obsession

There's something in your eyes, there's something in your mind  
There's something in your look, there's something in your smile  
There's something in your voice, there's something in your stare  
There's something in your stare, there's something in the night

You swore that you would never let it come to this  
You'd walk away and let it be  
Your obsession is ruining my life  
Your deadly game is killing me
