

Victim Of His Time

Demon

Bring on the dancing girls
There's pink champagne on ice
He's so outrageous you gotta go
Just to see the show
Valentino had the looks
He also had the style
But this guys got everthing and more
Thats for sure
Play that song again, turn up the radio
Just sit back and watch I like the video

Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see
Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see

I love that rhapsody
It reminds me of a time
Bring back those memories to me
Like it used to be
The pleasure you gave to us
It just goes on and on
The music's so sweet like a vintage wine
Gets better all the time
Play that song again, turn up the radio
Just sit back and watch I like the video

Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see
Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see

See him there standing in the light
A showman to the world
Living out his royal reign in his own way
Strutting around in that style of his own
A prima donna to the crowds
A messenger from the gods
Sent to spread the word

Bring on the dancing girls
There's pink champagne on ice
He's so outrageous you gotta go
Just to see the show
Valentino had the looks
He also had the style
But this guys got everthing and more
Thats for sure
Play that song again, turn up the radio

Just sit back and watch I like the video

Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see
Just a victim of his time
A star that he wanted to be
A kinda magic so unique
His like again we'll never see
