

# An Endless Celebration

Demonical

Abandoned sons of treachery  
Descending into the pit  
A dynasty of lies and deceit  
Forever to be terminated

Vivid awakening of fearless mind  
At last, the time has come  
For this legendary retaliation

Blazing spirit of a destined mutiny  
Dismantling an age of false beliefs

Cold retorsion

Let them hang, in front of the people  
Let them hang, let us spit at the cattle  
Never-ending humiliation  
A cause for an endless celebration

Crippled conception, vacillating faith  
Triumphant redemption  
Shattered empty paradigm  
Travesty, the important struggle  
To elude the punishment  
So, let them hang and let them fall  
Into the vindictive hands of the elevated

Impeccable architects of the coming age  
Actuating an era of true beliefs

Cold retorsion

Let them hang, in front of the people  
Let them hang, let us spit at the cattle  
Never-ending humiliation  
A cause for an endless celebration

Speechless they watch as the pattern form  
Flawless, our surprise  
As they fall into the unknown

Abandoned sons of treachery  
Descending into the pit  
A dynasty of lies and deceit  
Forever to be terminated

Vivid awakening of fearless mind  
At last, the time has come  
For this legendary retaliation

Blazing spirit of a destined mutiny  
Dismantling an age of false beliefs

Cold retorsion

Let them hang, in front of the people  
Let them hang, let us spit at the cattle

Never-ending humiliation  
A cause for an endless celebration
