

## Diabolic

### Demons & Wizards

Tell me  
Are you a traitor or a friend?  
You must be both for you  
Descend into the pit, welcome  
Yet, you shall rise again  
Rise again  
Rise again  
Rise again

Destiny  
Is defined by his authority  
While our chains are on  
It's him who holds the answer  
For these fools

Since heaven's denied  
What's wrong and what is right  
I spread my wings and fly away  
The great decline

When heaven denies  
The fallen one shall shine  
And carry light, the dawn of day  
You're the morning star

Sail on  
Brother  
I salute you, Lord of Flies

Ah-ah-ah  
Ah-ah-ah  
Ah-ah-ah-ah  
Ah-ah-ah-ah

Beelzebub, believe me  
Together we are strong  
Destiny, it is a fact  
'Cause you're approaching me  
At last, spit it out  
These foul words  
(Now, spit it out, his blatant phrase)  
It shall be, let it be

Since heaven's denied  
What's wrong and what is right

I spread my wings and fly away  
The great decline

When heaven denies  
The fallen one shall shine  
And carry light, the dawn of day  
You're the morning star

Since heaven's denied  
What's wrong and what is right  
I spread my wings and fly away

The great decline  
The great decline  
Then on fiery winds we glide  
'Cause we got wings to fly  
Then from this bottomless abyss we rise  
We shall rise  
We shall rise  
We shall rise

Gather up  
Hold back your rage  
Calm down the storm  
Yield thee, there's no surrender  
No more doubts  
There is no solution  
Be full of hate  
Hold the gate  
There is no one else but me  
They blame

Carry on  
The tempest we survived was strong  
At the gates, suddenly  
A voice so clear

Deus  
Deus  
In Diaboli Mundi  
Suddenly, a voice breaks through
