

# Invincible

## Demons & Wizards

Downward we must travel  
And star dust we can't see  
We'll find a way  
We'll guide them home  
When the dark night ascends  
In mighty union  
We will set their spirits free

Daemon mine  
Stand by my side  
There's church and there's science  
The seed of doubt's conceived  
There's no such thing  
It's blasphemy  
I've witnessed dust  
Yet, it will slowly fade away  
Since every breath  
Holds another chance  
We better carry on

Source of it all  
Reveal the meaning of life  
To everyone  
Be the spark  
That will light up the night  
You shall be the song  
That will carry hope  
And we're the army behind you  
Move on

No response when you join the bark  
You leave your soul behind  
The fearless grace must walk alone  
Now leave your precious soul behind  
Now leave your precious soul behind  
Now leave your precious soul behind  
Your choice so cruel  
The real temptation  
Is waiting in the end

Source of it all  
Reveals the meaning of life  
To everyone  
Be the spark  
That will light up the night  
You shall be the song

That will carry hope  
Just find back  
Your troubled weary soul  
And then side by side  
You're invincible  
No one can divide  
His dark materials  
Don't deny them  
You will carry the light  
A new dawn

Source of it all  
Reveals the meaning of life  
To everyone  
Be the spark  
That will light up the night  
You shall be the song  
That will carry hope  
Source of it all  
You're invincible  
Carry on  
Now summon the wind  
Then forever  
You'll be one  
Embrace a new dawn  
And then be the one  
The stars  
They fall  
Worlds collide  
Yet  
And now be the one  
You shall bring back the light  
Source of it all  
Reveals the meaning of life  
To everyone  
Be the spark  
That will light up the night  
You shall be the song  
That will carry hope  
Source of it all  
You're invincible  
Carry on  
Now summon the wind  
Then forever  
You'll be one  
Embrace a new dawn  
And then be the one  
The stars  
They fall  
Worlds collide  
And now be the one  
But you are the key  
And the source
