

Timeless Spirit

Demons & Wizards

Time, it measures us
Time never silenced
The white wolf is howling
Talk, talk to me
Will you walk with me?
Will you come along?
The raven is cawing
Talk, talk to me
These timeless spirits
Awake now
Oh you'll never run away 'cause
We won't let you fall, friend
Oh what I saw in the mountains
You'll never run away 'cause
We won't let you fall, friend
Time, it measures us
Time never silenced
Now that the old ghosts have gathered
Please talk with me
Will you walk with me?
To help me recall?
The past lives keep calling
Haunt, haunting me

There is no innocence
There's only truth
They try to run from me
You'll never run from me
Though you feel it's complicated
There is no innocence
When it comes to truth
No there's only truth

Time is measuring us
Timeless measuring
You'll never run away 'cause
I won't let you fall, friend
You must take the ancient spirits
Out of the shadows
In your heart
You must let them in

Oh lord, can you ever forgive me?
I painted shades of red through ages

Talk, talk to me
I am just a killer I'm confronted with my fate
I stand my ground, and die with honor
Walk, walk with me

There is no innocence
There's only truth
They try to run from me
You'll never run from me
Though you feel it's complicated
There is no innocence
When it comes to truth

No there's only truth

Time is measuring
Timeless measuring
You run away but you are forced to face this
There's no choice
Take the ancient spirits
They're gonna walk with you
Help seal your fate
Now play the game
It's all been planned for you
Time is measuring
Timeless measuring
You run away but you are forced to face this
There's no choice
Take the ancient spirits
They're gonna walk with you
Help seal your fate
Now play the game
It's all been planned for you

You need to come along
Come, come along with me
It is your last step off the horizon
Scream out!
You're one with stars that light the sky
You're one with stars that light the sky
The end comes
You're welcome here with me
