

## Universal Truth

## Demons & Wizards

There's someone else I know  
But I don't fear it anymore  
Not, anymore  
She's been around here  
Her will so strong  
She's hiding something  
She'll protect and save  
Her heart and soul

Another place, another door  
It's nowhere safe  
There is war, war, and war  
Oh, this handsome face  
Reveals an ancient grace  
This path we shall not walk alone  
We are the ones  
They will fail to betray  
We are the ones  
They shall not cross our way  
It's like  
I'm always meant to be  
With you  
And we are on our own

Determined you'll find a way  
When I cry out for you  
My universal truth  
Determined you'll find a way  
When I cry out for you  
My universal truth

They're like fading shadows  
Of a waning age  
In a burning vision  
Of a world misplaced  
We are the ones  
We will fight to retrieve  
We are the ones, faith is strong, we believe

For when you've found me over there  
The universe longed for relief

Determined you'll find a way  
When I cry out for you  
My universal truth  
Determined you'll find a way  
When I cry out for you  
My universal truth

We can avoid it, we must dare  
These cuts been made, we'll seal them all

Guardian angels and daemons  
Side by side  
They all will fight for their lives  
They cease  
It's been a gift to be

Voided, it's taken away  
We walk blind now  
There is a future  
We must sacrifice it  
Let it come, we must destroy  
The subtle knife

Determined you'll find a way  
When I cry out for you  
My universal truth  
Determined you'll find a way  
When I cry out for you  
My universal truth  
You are my universal truth  
When I cry out for you  
My universal truth

The Northern Lights  
They move along  
Move on and on
