

Boiling Point

dEMOTIONAL

Can't remember last time I saw sunshine in the sky
Just smoke and flames, a constant roaring battle cry
Run from shadows, watch them burn to the point of no return
We had to cross the line before we ever learned

We can't slow down, can't look back, there's no stopping now (I
think the end is coming)
Must escape this mess, but how? (Keep running, keep running)
There's no easy way to get out
Never thought it would be so easy to create our doom

It's a bitter taste, it's all erased
Death of a world on our conscience
Go before the storm's upon us
Now don't dwell on hate, this is our fate
Don't you look back, just stay on track

We can't slow down, can't look back, there's no stopping now (I
think the end is coming)
Must escape this mess, but how? (Keep running, keep running)
There's no easy way to get out
Never thought it would be so easy to create our doom
And in this flame, we all burn the same

We're getting closer to the edge
Will we finally find a way to turn back home?
Stand our ground or we'll be dead
Will we live another day?

We can't slow down, can't look back, there's no stopping now (I
think the end is coming)
Must escape this mess, but how? (Keep running, keep running)
There's no easy way to get out
About damn time that we fought back before we get consumed

We can't slow down, can't look back, there's no stopping now (I
think the end is coming)
Must escape this mess, but how? (Keep running, keep running)
There's no easy way to get out
