

Invincible

dEMOTIONAL

I've always defined my own way, fuck the rules of society
Directions set by others never did appeal to me
Might be clueless, they say I'm a lost cause, an empty toolshed
, they say I'm a freak
Might not fit your boring puzzle, but at least I am unique.
I'm not alone in this madness, there's light in my darkness
To comfort me, to back up me, when life's not easy

Lost at sea like a ship searching for land
When you reach out a helping hand

Push me to fight on, help me to be strong
You make me feel invincible
Guide me through the storm
Keep me safe and warm
You make me invincible

Stubborn like a raging bull, I never listen once I've set my mind
Just try to hold me back, and watch me as I cross the line
Ignoring consequences, contemplation aint my style. I'd be dead
a hundread times, I love you, you're
the reason I'm alive.

Push me to fight on, help me to be strong
You make me feel invincible
Guide me through the storm
Keep me safe and warm
You make me invincible
