

Love burning brighter than the sun
There is truly nothing I wouldn't have done
I'd sacrifice a whole generation to keep you safe, to give you protection
Love burning brighter than the sun
There is truly nothing I wouldn't have done
I'd sacrifice a whole generation to keep you safe, to give you protection
No price too big, I'm willing to pay
You're my northern star, you're safe here with me

Light years from home, no one hears you calling
And you try to be strong when you're on your own
Cold to the bone, through the night you're crawling
You are not alone, you are not alone

Jamais un au revoir tu t'en apercevra
Cuz in my heart you'll always have a part
You are my northern star

Constant longing, my whole world revolves around you
I'm just a shell of my former self
Every breath like drowning, so frustrated, what can I do?
But there is nothing I can do to help, so I have faith in you

Light years from home, no one hears you calling
And you try to be strong when you're on your own
Cold to the bone, through the night you're crawling
You are not alone, you are not alone

Jamais un au revoir tu t'en apercevra
Cuz in my heart you'll always have a part
You are my northern star

I see you everywhere
Close my eyes and await the next morning
But in the darkness you'll find a way
You got the power, you got that from me
Just have faith in your prowess, my precious lioness
I know you'll make it home, stay strong

Jamais un au revoir tu t'en apercevra
Cuz in my heart you'll always have a part
You are my northern star

Jamais un au revoir, I know just where you are
Cuz in my heart you'll always have a part
You are my northern star
