

# Sleepless

## Demotional

As the time flies by  
I feel my heart stops beating  
Just let it go  
Is this real?  
Is this reality?  
I cannot breathe  
I cannot fucking breathe

There's no escape from this past we had  
I am sleepless  
There's no escape from this past we had  
I am sleepless  
I am sleepless

Third time strike three  
The last time  
I won't fall like the rest of them  
You have made your point  
And I have made mine  
You're going down for the last time  
Last time

There's no escape from this past we had  
I am sleepless  
There's no escape from this past we had  
I am sleepless

I can't breathe  
This is choking me  
I can't breathe  
This is choking me

I can't breathe  
This is choking me  
I can't breathe  
This is choking... me

There's no escape from this past we had  
I am sleepless  
I am sleepless  
There's no escape from this past we had  
I am sleepless  
I am sleepless

I am sleepless  
I am sleepless
