

# My Melody

Deniece Williams

Some people feel it all around them  
Others feel it inside  
Some people spend a lifetime searching  
For the rhythm denied  
Life's music can make you happy  
Life's music can make you want to cry  
Don't ask me why

It's not another song  
It belongs to me  
It's not another song  
It's my melody

You can let troubles strum on your heartstrings  
Or let them blow in the wind  
I'll write another happy love song  
When I feel it again  
Life's music can take you real low  
Life's music can take you up real high

Don't ask me why

It's not another song  
It belongs to me  
It's not another song  
It's my melody

(Melody, melody, melody)  
Ooh...  
(Melody, melody, melody)  
Ooh...

It's not another song  
It belongs to me  
It's not another song  
It's my melody

Ooh...

You can say what you wanna say  
I'm gonna live my life my way  
It belongs to me  
Ooh...

It's my melody  
Ooh, it belongs to me  
It's my melody, ooh...
