

# This Time I'll Be Sweeter

Deniece Williams

Darling, can't you see  
What losing you has done to me?  
I'm not the same girl I used to be  
Have a chance of heart  
Don't leave me standing in the dark  
Don't let delusion keep us apart  
Come back to me  
And I'll guarantee  
All the tenderness and love you'll ever need

This time I'll be sweeter  
Our love will run around  
I won't let you down  
Have faith I'm me

Since you've been away  
I haven't seen the light of day  
I'm lost without you can't find my way  
So won't you please be fair  
And let me show how much I care  
Say you'll be mine and answer my prayer  
Come back to me  
And I promise I'll be  
Everything that's bright and new your whole life through

This time I will be sweeter  
Our love will run deeper  
I won't mess around  
I won't let you down  
Have faith in me
