

# there's no way you'd want me back

Denise Julia

I've had too much to think of now that it's a blur  
Another sleepless night  
Don't wanna hear me cry  
I can't remember the specific lullaby  
One between you and I  
Used to keep my eyes dry

But baby, you know you deserved me  
Don't matter if I did you dirty  
'Cause baby, all I'm asking is for one last try

When there's no way that you'd  
Want me, want me back  
Way that you'd  
Want me, want me back  
Wish that I kept your heart intact  
While I lost my mind and my head and myself

And now there's nothing left for me to say  
You said I'm cliché  
When I was open about my feelings  
Shoved me away  
I'm sorry I was too much  
If I made some mistakes  
Guess I just wanted you to take all my pain away

See, I just wanted you to stay with me  
Be my protector and my company  
Now it's my fault for asking desperately  
And I shouldn't hold you for my sanity

When there's no way that you'd  
Want me, want me back  
Way that you'd  
Want me, want me back  
Wish that I kept your heart intact  
While I lost my mind and my head and myself

When there's no way that you'd  
Want me, want me back  
Way that you'd  
Want me, want me back  
Wish that I kept your heart intact  
While I lost my mind and my head and myself

See, I just wanted you to stay with me  
Be my protector and my company  
Now it's my fault for asking desperately  
And I shouldn't hold you for my sanity
