

## Alright

DENM

I got a feeling we'll be alright  
We'll be alright

I just wanna sit on the beach with some white sand  
Margarita on the rocks, chillin' in my right hand  
Mariachi music playin' in the distance  
Most flow home, everythin' is slo-mo  
I'm just stuck in traffic in my '87 wagon  
I got no AC, but I saw this Hades in the shade  
Hopin' I could catch a break, 'cause life will never go my way

I got a feeling we'll be alright  
We'll be alright  
I got a feeling we'll be alright  
We'll be alright

Wake up early morning with a headache  
Pound some water, light a smoke and pour myself a new drink  
I guess I'm tryna escape all the bad things  
It's wondering why life is this way  
This way  
Walk around the block just to clear my mind  
All the tweakers still up from the previous night  
I guess I like it better coming from the bottom  
The Reaper took a swing, but he can never say he got 'em

I got a feeling we'll be alright  
We'll be alright  
I got a feeling we'll be alright  
We'll be alright  
I got a feeling we'll be alright  
We'll be alright  
I got a feeling we'll be alright  
We'll be alright
