

Good Thing

DENM

I'm just tryna toss a line and catch a milly
A mention for my fam up in the hilly
They been sleeping out here, boy, but now they feel me
They can't stop me, they won't stop me, unless they kill me

Ooh, I got that loving they been looking for
Ooh, I got that girl already fell in love
Y'all be searching 'til the day you're dead
Soon as I get that paycheck you know I'll be where you at

I wanna have it all right now
But sometimes you gotta wait for the good thing
Feel like we're going round and round
But sometimes you gotta wait for the good thing
But sometimes you gotta wait for the good thing
But sometimes you gotta wait for the good thing

I keep having a dream when I was sleeping like
Saturday night in the arena winning that Grammy like
Everybody know my name, they wanna sing along
Like I'm a virgin to the fame, now they sing along

You're DENM
Look what you've done
Look what you've done
Yeah
They say "You're DENM"
Look what you've done
Look what you've done

You got the whole world to fall in love with you
Have some fun with you
Every kid around the globe turning up with you
They say "You're DENM"
They say "You're DENM"
Yeah, yeah

I wanna have it all right now
But sometimes you gotta wait for the good thing
Feel like we're going round and round
But sometimes you gotta wait for the good thing

So how do I stay awake
If I wanna stay up for the good thing?
Every step of the way
Another lesson learned waiting for the good thing

So how do I stay awake
If I wanna stay up for the good thing?
Every step of the way
Another lesson learned waiting for the good thing

I wanna have it all right now
But sometimes you gotta wait for the good thing
Feel like we're going round and round
But sometimes you gotta wait for the good thing

I wanna have it all right now
But sometimes you gotta wait for the good thing
Feel like we're going round and round
But sometimes you gotta wait for the good thing

Sometimes you gotta wait for the good thing
Sometimes you gotta wait for the good things
