

It's been about 25 years
That I've been walking in these shoes here
Some times were hard some times were good
I fell in love never thought I would

When I see them pretty green eyes
Looking right back at mine I
Just wanna love you, baby
I just wanna love you, baby

When I see them pretty green eyes
Looking right back at mine I
Just wanna love you, baby
I just wanna love you, baby

When I was eighteen
It was a little bit shady
Always tryna play me
But you were my baby
I don't even wanna know
Bout who you been textin'
Bout where you been restin'
Girl I've been arrested
Don't need to be tested
We could forget it

When I see them pretty green eyes
Looking right back at mine I
Just wanna love you, baby
I just wanna love you, baby

When I see them pretty green eyes
Looking right back at mine I
Just wanna love you, baby
I just wanna love you, baby

When I see them pretty green eyes
Looking right back at mine I
Just wanna love you, baby
I just wanna love you, baby
