

LITTLE LOVE

DENM

Here comes the big Mac daddy
In the Coke white Caddy
Rollin down the street
While he's smokin' up a fatty
Won't you listen one time?
To the words I gotta say
Life is like the tax guy
Everybody's gotta pay

Everybody just needs a little love
It's gonna help you get by
It's gonna help me get by
Everybody just needs a little love
It's gonna help you get by
It's gonna help me get by

I'm on my wave, you can't relate
I'm chasing loot, you're running late
Better get that gas pedal bit lower
If you're coming out the gate
I've been broke so goddamn long
I got that motivation in me
Thought I'd go out as a bum
But having kids, you know, it changed me
I was going going crazy
Then your lovin' came and saved me
Now all I need, now all I need

Everybody just needs a little love
It's gonna help you get by
It's gonna help me get by
Everybody just needs a little love
It's gonna help you get by
It's gonna help me get by

Everybody just needs a little love
