

Lose Myself

DENM

Starting to lose myself
Think I could use some help
But they don't see me
Getting used to this feeling

Oh why, oh why, can't I erase my memories
I've tried and I'm tired, I guess I am my own worst enemy
Hold tight, cuz I might just do anything
But I'll fight all night, no I won't give up easily

Starting to lose myself
Think I could use some help
But they don't see me
Getting used to this feeling

My girl caught me talkin' to myself again
Wondering just what goes on in my head
I told her that even if I could express
It all falls on deaf ears I don't waste my breathe
I might just go do something stupid
Fly around town like I'm super human
Feeling like God, 10 ft tall
Then I come down, feel oh so small

Starting to lose myself
Think I could use some help
But they don't see me
Getting used to this feeling

Hopin' I can fall asleep and wake up in the morning
Feelin' like I'm in too deep ignoring all the warnings
Hopin' I can fall asleep and wake up in the morning
Feelin' like I'm in too deep ignoring all the warnings
