

# Equal Rights

Dennis Brown

Every man has an equal right to live and be free  
No matter what colour, class or race he may be

Treat him right, Lord, and oh, treat him good  
Take a tip from me, don't hang him on a tree  
We should never give against another man

'Cause every man has an equal right to live and be free  
No matter what colour, class or race he may be

Remember how we're all one flesh and blood  
Keep your brother up, don't push him in the mud  
We should never give against another man (No, no-no)
