

Always Time

Dennis DeYoung

I know that we're lost
And we can't find our way
As all the dreams that we dreamed
Slip away
And we don't know which way to turn
Or where to go
And the thoughts we've been having
They frighten us so

And what would you give
To find one ray of hope
Knowing it takes all your strength
Just to cope
While the days dissolve into years
Oh we'd like to know
Where did it all
Where did it all go

Time
Is gone like a wish down a wishing well
Never a pause on its carousel
Always leaving us wanting for more
Time
Racing away to the stratosphere
Reminding us all of the wasted years
As we wonder what life has in store

Oh time
Always time
Always time

And you wonder each night
Can you face all your fears
Hoping some how
That your faith reappears
And shines its glorious light
That saves the day
But then once again
Heaven's clock has its say

Time
Is gone like a wish down a wishing well
With never a pause on its carousel
Ever leaving us dying to know
Time
Gone like a thief down an alleyway
Bending itself round the milky way
Hey didn't we just say hello

Oh time
Always time
Always time
