

Light Up

Dennis DeYoung

Light up everybody
Join us in this celebration
Light up and be happy
Sweet, sweet sounds will fill the air

Every day's a holiday when your lips meet mine
The music's keepin' time with our love
You are here, and so am I
The weather's quite divine
So pass me round your wine, lovely one

All I need is just one hit to get me by
'Cause baby when you're near I'm halfway high

Light up, everybody
Join us in this celebration
Light up and be happy
Sweet, sweet sounds will fill the air
