

# Made for Each Other

Dennis DeYoung

'Twas on a night like this  
With Shakespeare in the park  
Staring Romeo and Juliet  
We dreamed upon a kiss  
On a soft midsummer's night  
When we swore our love inviolate

Poets tried for centuries to define the meaning of  
But we could solve this mystery if we told them 'bout our love

'Cause you and I we were made for each other  
Like couplets in perfect rhyme  
You and I we will stay here together  
Till the end of time  
Till the end of time

And after all these years  
You really haven't changed  
Somehow you look the same  
And oh the scent of you  
Well no one can compare  
Not here or there or anywhere

Our bodies always seem to fit so perfectly  
No other arms could ever hold so tenderly

'Cause you and I we were made for each other  
Just like two words in perfect rhyme  
Baby you and I we will stay here together  
Till the end of time  
Till the end of time  
Till the end of time

On the night on the night when I first met you  
We were kids crazy kids wishing on stars  
And through the joy and pain we have faced together  
Here we are baby here we are

You and I we were made for each other  
There ain't no mountain we can't climb  
Baby you and I we will stay here together  
Till the end of time  
Till the end of time  
Till the end of time
