

## While There's Still Time

Dennis DeYoung

How can you sleep tonight  
When you know that tomorrow you'll be miles away  
And how can you leave if you know when you kiss me goodbye  
Phoebus I'll cry  
Where do I find the words  
To convince you that there's a secret part of me  
That dies at the thought of you leaving to go off to war  
When I'm wanting you more

So while there's still time  
Say that you love me  
Please hold me tight  
While there's still time

If I could stop the dawn  
Make the moon and the stars shine on forever more  
And never again have to say how much I'm missing you  
But what can I do

So while there's still time  
Know that I love you  
Please hold me tight  
While there's still time

All you desire  
I will gladly give to you  
My body my soul  
There is nothing I won't do  
If you love me  
Believe me  
I'll give all to you

So while there's still time  
Know that I love you  
Please hold me tight  
While there's still time  
While there's still time  
While there's still time
