

## Changes

Dennis Lloyd

Can you imagine what it's like to move ten thousand miles away from home to concentrate on songwriting and production?  
Because that's exactly what our next guess did and his dedication has really paid off  
His song "Nevermind" is a certified global hit and he makes...  
Here with his single, it's called "Nevermind", Dennis Lloyd

Life is changing  
But I feel the same  
Kinda lonely  
A different kind of man  
All the while I'm  
Tryna feel the plan  
Life is changing  
But I feel the same

I wanted to arrive at the promised land  
That fame, offer that exchange for hard work, dedication and perseverance  
But for some reason  
I become discontent with my life  
But why? I mean, I had everything I ever wanted but  
Something was missing  
It was my perspective (But I feel the same)  
On what I thought I needed in order to be successful  
And in order for you to understand my scope into fame  
I first must give you a brief snippet  
Of what I've gone through to get me here for you beautiful people  
I am Dennis Lloyd  
And this is my journey into figuring out why purpose will always supercede fame  
And the valuable lessons I learned from being, well, almost famous

Life is changing  
But I feel the same  
Kinda lonely  
A different kind of man  
All the while I'm  
Tryna feel the plan  
Life is changing  
But I feel the same

Life is changing  
But I feel the same  
Kinda lonely  
A different kind of man  
All the while I'm  
Tryna feel the plan  
Life is changing  
But I feel the same
