

# Don't Stop

Dennis Lloyd

Don't stop thinking about tomorrow  
Don't stop, it'll soon be here  
It'll be better than before  
Yesterday's gone, yesterday's gone

(Yeah)

It's either you stand for something or fall for anything  
Gotta give my all, I'm putting in everything  
Common sense ain't common anymore, you'd think we're more intelligent  
Making an impacts imperative  
The latest trends, all irrelevant  
Nothings as wild as human nature and I'm in a room full of elephants  
God save the planet  
But we're the ones that really need saving  
We're too worried about what we're generating and not worried about the next generation  
Gotta do it for the family tree  
And it's not too late but Father Time will slow down the clock  
And Mother Nature said you're testing her patience

Don't stop thinking about tomorrow  
Don't stop, it'll soon be here  
It'll be better than before  
Yesterday's gone, yesterday's gone

(Yeah)

Madness all in the name of power and profit  
We don't have even need a prophet  
The issues now and we're the problem  
Everyone's wearing a sugar coat (Yeah)  
Dressing up the naked truth  
But it's gonna cost us wearing these costumes  
Even if the voices feel too loud  
Turn up the volume  
Let's be sustainable, we're so replaceable, climate change isn't un-changeable  
Don't need a cape to be capable, nobodies superman but this could save us all  
This call to arms, who's gonna make the call?  
We're so divided but we've gotta multiply actions

Don't stop thinking about tomorrow  
Don't stop, it'll soon be here  
It'll be better than before  
Yesterday's gone, yesterday's gone
