

Some Days

Dennis Lloyd

When I wake up and I feel like I don't really wanna leave my bed
I gotta deal with the same thoughts that I really don't understand
What I wanna say
What I wanna do
Can I really contain this life?
If you want it all, you gotta lose a bit
Are you willing to sacrifice?

'Cause I know someday the lights turn off
Where would I go?
Some days I'm high, some days I'm low
Where would I go?

When I feel down, feel bad and I really want to stay in bed
Want to share my emotions, but nobody can understand
What I wanna say
What I wanna do
Can I really contain this life
If you want it all, you gotta lose a bit
Are you willing to sacrifice?

'Cause I know someday the lights turn off
Where would I go?
Some days I'm high, some days I'm low
Where would I go?

On and on and on I feel the pressure in my bones
Every single time I'm on my own
And on and on and on I hear the voices in my head
Where would I go?

'Cause I know someday the lights turn off
Where would I go?
Some days I'm high, some days I'm low
Where would I go?

I know someday the lights turn off
Where would I go?
Some days I'm high, some days I'm low
Where would I go?
