

It's like you want control of my conscience
I like the way that you function
Your pussy way too gold for the mandem
A boom bye, Buju Banton
Smart gyal, come like you a Samsung
I like the way that you frontin'
We take flights every time, flights every night
'Cause you're too fly for a landing

Push up your body my way
We can do this through the night and day
I'll pull you close so you're feeling safe
You make me wan' control
How I love it when you're going slow
Now I have you, never letting go
Mi love the way you when you whine, whine, whine, whine, whine
Mi love it when you take your time, time, time
Mi love the way you speed it up
Buss it like you're number one
I love it when you whine, whine, whine, whine, whine
Somebody haffi call up 999
Mi love it when you whine it slow for me
Mi love it when you whine it up for me

Saw you cross the room, yeah, I can't deny that
Looked at your friends, then you gave me eyes back
Tek' you to a room, movie, IMAX
Playing some Usher, we can hit a climax
Yeah, yeah, yeah
Drop it down low for me
Ride slow when you go for me
My baby gyal, over me
If you really want to, you can come with me out and away
Find us a place
Don't be afraid
We got no time to waste
We can spend some dough
Give me a show
Can't let you go 'cause you're pussy too good, too sweet, love

Push up your body my way
We can do this through the night and day
I'll pull you close so you're feeling safe
You make me wan' control
How I love it when you're going slow
Now I have you, never letting go
Mi love the way you when you whine, whine, whine, whine, whine
Mi love it when you take your time, time, time
Mi love the way you speed it up
Buss it like you're number one
I love it when you whine, whine, whine, whine, whine
Somebody haffi call up 999
Mi love it when you whine it slow for me
Mi love it when you whine it up for me
