

Hold Me Down

Deno

We done came so far, but we far from the end
Yeah, we pain so much, cos we lost some friends
My chain gone buss when I'm riding in the Benz
They ain't on us, you won't reach where we at

Got a hunna thousand on my neck it's for the jewellery
Free my people sent down by the jury
I need help, will somebody out there cure me
I'ma beast but I'm looking for a beauty

Like ooh... ooh... like ooh...
If I hold you down
Will you hold me down

Like ooh... ooh... ooh...
If I hold you down
Will you hold me down

They say Deno how you shine like this
I thought niggas really loved me, but they lie like this
I don't trust in nobody, I gotta hide my shit
Stay real to who I am, and I abide by this

Would you still love me if I wasn't moving in the way that I do
And put me in a room, and I'ma spray out the booth
Can guarantee it's true, because I say that I do
You can me keep out the gossip, there's no shade in my room

Like
Why did you leave me, but I don't know bout you
I know you see me, yeah you know bout us
You know bout me
I hold bout two and I hold bout three

Cos I be killing hooks when I spin, like a clip I'ma sing
What the hell how he shine like this
I be everywhere but I mind my shit
I done put my mama in a mansion and watch her vibe like this

Like ooh... ooh... like ooh...
If I hold you down
Will you hold me down

Like ooh... ooh... ooh...
If I hold you down
Will you hold me down
