

A Little Bit Goes a Long Way

Dent May

Ray of sun, come along and dry the rain from my eye
I see a long road ahead, and I need a little help
To get by

Starry sky, let the universal truth be my guide
Wandering lost in the night, I could use a little light
Come on, shine!

Oh, how it feels to spread some some love around
What did you give lately?

A little bit goes a long way
(A little bit goes a long way)
A little bit goes a long way
(A little bit goes a long way)

Distant sea, float along until the waves bury me
The water is so deep, and your hand is all I need
To get by

Oh, how it feels to spread some some love around
What did you give lately?

A little bit goes a long way
(A little bit goes a long way)
A little bit goes a long way
(A little bit goes a long way)

A little bit goes (A little bit goes)
A long way (A long way)
A little bit goes such a long, long way

A little bit goes (A little bit goes)
A long way (A long way)
A little bit goes such a long, long way

Oh, how it feels to spread some some love around
What did you give lately?

Oh, how it feels to spread some some love around
What did you give lately?

A little bit goes a long way
(A little bit goes a long way)
A little bit goes a long way
(A little bit goes a long way)
