

Coasting On Fumes

Dent May

Driving all alone
Got no place that I call home
There's so much to see
Can't decide where I should be
So I ride from town to town
I'm on the verge of breaking down
Dollars I have few
Just enough to get to you

Coasting on fumes
Chasing away these burnout blues
Reach for the stars
Still I don't make it very far
Losing my mind
Making my way on borrowed time
Coasting on fumes
Coasting on fumes

Headed nowhere fast
Dangerously low on gas
Am I gonna make it last the drive?
The station is in sight
But I think that I just might
Roll the dice
Tonight
As I've done my whole life

Coasting on fumes
Chasing away these burnout blues
Reach for the stars
Still I don't make it very far
Losing my mind
Making my way on borrowed time
Coasting on fumes
Coasting on fumes

I'm gonna go all night
Hope I make it to you all right
And I won't stop 'til you're in my sight
Even if I see the sunrise

Coasting on fumes
Chasing away these burnout blues
Reach for the stars
Still I don't make it very far
Losing my mind
Making my way on borrowed time
Coasting on fumes
Coasting on fumes
